**Manometer is a
pneumatic ultra-
black slab-serif
font with soft
corners and fine
counters.**

A shiny, metallic blue whale-shaped balloon is the central focus, floating against a deep purple background. The balloon is highly reflective, showing highlights and shadows that give it a three-dimensional appearance. Several small, clear bubbles are scattered around the whale, some near its head and others further away. The word "Volume" is written in a large, bold, white, sans-serif font across the middle of the whale's body.

Every line, every word, seemed to mean more than its mere meaning. They were like containers, filled with the spirit of pressure that almost burst them. *And yet, in this dangerous balance in which the writing existed*, there was a strange beauty. It was the beauty of the tension, of the imminent discharge that could be measured by the manometer, but could never be fully explained.
